LIMIT BREAK

DIGITAL SOLUTIONS

CAPABILITY STATEMENT | ALBANY, NEW YORK

Microsoft expertise. Accountable delivery.

Microsoft 365, SharePoint, custom software and digital modernization for government and institutional teams.

CORE CAPABILITIES

Microsoft 365 & SharePoint

Intranets, information architecture, libraries and permissions.

Power Platform & automation

Structured intake, approvals, document routing and integrations.

Custom software & modernization

Applications, APIs, system assessment and phased migration.

Data, reporting & web platforms

Power BI, SQL, Drupal, WordPress and accessible interfaces.

FOUNDER & PRINCIPAL - USMAN MOHL

14+ years across government, education, labor and commercial environments. Selected professional experience includes NYS Canals (SharePoint and Power Platform), NYSUT (enterprise modernization), CSEA (member platforms and vendor APIs), and NERIC (C#/.NET and educational data). These are personal contributions in professional roles, not company contract awards.

DELIVERY & TEAMING

Discovery, architecture, iterative implementation, validation and launch with documentation, training and knowledge transfer. Available to discuss scoped specialist workstreams with prime contractors; responsibilities and engagement requirements are agreed before commitment.

CURRENT BUSINESS & CONTRACTING STATUS

Business formation and vendor registrations are being established. No active contract vehicle, registration, certification or solicitation eligibility is claimed. Legal identity, vendor IDs, NAICS, UEI and insurance remain unpublished unless verified below. Confirm requirements and current status for each engagement.
